Long-Term Disability Insurance

Full time employees are eligible for long-term disability insurance which compensates for a loss in wages should an injury or illness prevent you from working. Two options are available: one with a 30 day waiting period, the other with a 90 day waiting period. Employees pay premiums based on his/her age and earnings.

There is no open enrollment for long-term disability coverage. Employees who do not elect it when initially offered, but want to enroll later, will have to apply for coverage and answer health-related questions. The disability carrier will then determine whether to underwrite a policy for you.

Flexible Spending Account

Employees who are regularly scheduled 24 or more hours per week are eligible to set aside pre-tax money to pay for health care costs not covered by insurance and/or dependent expenses like daycare. Known as a Flexible Spending Account, you determine the amount of automatic pre-tax deductions from your paycheck up to \$2,600 for medical costs and \$5,000 toward day care costs. Employees must know that Flexible Spending Accounts are subject to the IRS "use it or lose it" rules, such that in the event the money in this account is not spent by the end of the calendar year, the employee forfeits it.

Employee Assistance Program

When life is just too much, EAP can offer employees and their families strategies, resources, and support to resolve personal issues that affect you and keep you from doing your best work. Upon hire, all employees will be eligible for free and confidential EAP services with a licensed, Master's level counselor who can support employees in areas such as stress at home or on the job, caring for elderly parents, or alcohol misuse.

Wellness Benefits

As one of America's Healthiest Companies and a designated Well Workplace, the overall health and well-being of our employees is a priority for the County. Our Wellness Committee plans and organizes interactive challenges, services, and fitness classes to all employees, regardless of employment status. Whether that's Zumba or Yoga classes on the lunch hour or after work, or a Maintain Don't Gain competition around the holidays, your participation in wellness offerings is free and voluntary.

Group Life Insurance

Life insurance coverage supports you and your family in case of loss and tragedy. Employees who work a minimum of 1,200 hours per year will be offered life insurance on the date of hire. The County pays up to \$9 per month of a Basic Unit of life insurance, which amounts to 1x your annual base earnings. Employees have the option to increase the amount of coverage and can purchase up to 5x your annual base earnings. You may also purchase coverage for your spouse and/or dependents. Life insurance premiums are paid by a monthly pre-tax payroll deduction.

RETIREMENT

Wisconsin Retirement System

Employees who work a minimum of 1,200 hours per year will be automatically enrolled into the Wisconsin Retirement System, wherein 6.8% of all earnings will be deducted pre-tax and placed into a retirement account in your name. If an employee qualifies, participation is required under Wisconsin state statutes. The County will match the employee's required contribution; however, an employee needs to be fully vested with five (5) years of full time service in order to claim the matched dollars.

Deferred Compensation

Employees who are regularly scheduled 24 or more hours per week are eligible to enroll in a voluntary deferred compensation program. This program, offered through ICMA-RC, allows employees to place pre-tax payroll deductions into a retirement account. If an employee needs to rollover a 401(k) or IRA from a previous employer, it can be rolled into an account through ICMA-RC.
